May Desert Pretty Companion For Chance To Be King

PARIS, July 22. - Former Crown Prince Carol, of Roumania, is "the man who would be king."

Tardy realization of his previous follies has succeeded Carol's genuine grief of two days over the death of his

father, King Ferdinand.
Carol is grieving today because he threw away the crown. Until today in numerous long talks with the former crown prince, the correspondents always addressed him as "Your Highness." When the International News Service correspondent was received by Carol this morning, he unsuspectingly used the same greeting. After a strained silence, Mme.

Lupescu, the beautiful, red-haired Roumanian woman with whom Carol has been living in Neuilly, made the correcting remark:

"It is his majesty, please." Carol seemed relieved. His attitude indicated plainly that he considers himself the rightful king. Realizing that he lost the Roumanian throne through folloy, Carol, for the first time seems annoyed slightly by her presence. But she is overawed by the possibility that her lover may mount the throne of the biggest kingdom in the Balkans.

Central High School halted the winning streak of the Junior Business Men at eight straight by walloping the league-leaders 17 to 16 in a Class A Xenia Playground League soft ball game at Cox Memorial Athletic Field Thursday

The victory reduced the lead of the leaders to one and one-half games and made more secure Central's position of second place in the standing.

Creamer's single in the last h of the ninth inning, which scored Doak from second, produced the winning run after the business men had uncorked three-run rallies in both the eighth and ninth rounds to tie the score.

Central scored fifteen runs in the first three innings but the hitting of the high school fell off in the late rounds. The league leaders fought an uphill battle all the way and were never in front. Howell Huston, Central shortstop

was the hitting hero of the contest knocking a brace of home runs, a triple and single. Doak and Tull formed the Cen-

TELLING the WORLD'S NEWS with PICTURES Rum War Hero

It is the ambition of E. F. Schlee, president of the Wayco air service, to shortly begin a round the world flight in company with "Billee" Brock, chief pilot of the company. August 15th is the date set for the hop off and the two fliers expect to achieve their goal in 15 days. The picture is of the plane with E. F. Schlee inset.

ALL ALONE

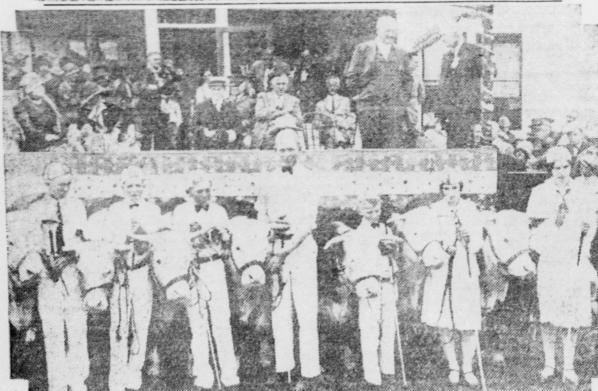

Little Gladys Rose Lemon, of Detroit, is only four years and six months old, but she is daring the perils of a transatlantic crossing all by herself in order to visit relatives in London, England. Such a tiny girl to go such a long way, and so utterly unconcerned about it-

PRESIDENT TAKES UP AGRICULTURE

Whether the commotion over the McNary-Haugen bill is responsible or not, the fact remains that President Coolidge has lately shown an increasing interest in the affairs of the farm. The top picture shows him on a tour of inspection of the government experimental station at Ardmore, S. D., while below he is attending a farmers' picnic at the same place

NEW WAR MACHINE IS TESTED

A military bombing biplane of an entirely new design, built by the Curtiss Airplane company, was recently tested at Mitchel Field, New York. The plane is an all-metal Curtiss Condor, motored with two 600 horsepower engines and capable of a speed of 105 miles an hour. Six machine guns are mounted in three turrets, one in the nose, and one in the rear of each of the two engine gondolas, and it has carrying space for 2,400 pounds of high explosives.

THE FLAPPER, CHINESE STYLE

Bobbed hair makes a girl a very modern flapper indeed, in China, report these two Chinese students at Wesleyan College, Macon, Ga. They don't go in for short skirts, at all, at all. "Anyway, our styles are prettier," say Miss Ling Nyi Vee, left, and Miss Ada Lee.

Of course, the question of Dempsey's left to the body had to come in for severe scrutiny and, in truth, it was low enough to deserve inquiry. It landed at or uncase. But the writer is not particularly concerned with the punch in question. You can't foul a man with a punch on the jaw, and it was such a punch that finished

Further, there was no claim of foul in Sharkey's corner and the referee calmly went on with the tuneless ten, apparently serene in the belief that everything was as it should have been.

Anyhow, post mortems of that kind never won a prize fight. Hit them over the fence and, if the umpire says fair, it is so ordered even if you gather about until daylight and weep until your vests

Dempsey and Tunney are set now to repeat their rampage of the rain, only this time they will play Chicago just by way of diver-

needed. Dempsey is the greatest man before the public today. He is the darling of the galleries again, a man whom they trusted and whom they trusted not in vain. Not many champions shorn of their titles have come back to such an impressive gesture as Dempsey made last night. Willard did it against Floyd Johnson and then folded up against Louie This may or may not be prophetic but I don't mind saying that I shudder to think what Tunney will do to the gasping, spavined Dempsey of the first six

rounds last night. But, then, I picked Sharkey to win in ten rounds, so it is probable that no one cares particularly how much or how violently I may shudder in the future.

However, as I saw it, Dempsey kept charging in with the old aggressiveness and played to the body as viciously as of yore. Except for his painful lack of speed and stamina, he fought a typical Dempsey fight. It merely was unfi tunate that Sharkey didn't get

GROWN PRINCE HURT LABOR AIDS LATIN DELEGATIONS OVER LOSING TITLE

May Desert Pretty Companion For Chance To Be King

PARIS, July 22. - Former Crown Prince Carol, of Roumania, is "the man who would be king."

Tardy realization of his previous follies has succeeded Carol's genuine grief of two days over the death of his

father, King Ferdinand. Carol is grieving today because he threw away the crown. Until today in numerous long talks with the for-mer crown prince, the corres-pondents always addressed him as "Your Highness." When the International News Service correspondent was received by Carol this morning, he unsuspectingly used the

same greeting.
After a strained silence. Mme.
Lupescu, the beautiful, red-haired
Roumanian woman with whom Carol has been living in Neuilly, made the correcting remark:

"It is his majesty, please." Carol seemed relieved. His attitude indicated plainly that he considers himself the rightful king. Realizing that he lost the Roumanian throne through folloy, Carol, for the first time seems annoyed slightly by her presence. Evidently he realizes how incongruous it was that she should be at his side when he heard the news of his father's death.

The former crown prince has to admit himself that Mme. Lupescu's presence embarrasses his family in their communications with him. Miss Gladys Turner, of On the other hand, Mme. Lupescu Broadway, was adjudged to apparently fails to notice the apparently fails to notice the LATE KING PLEADED New York at the notional, awed by the possibility that her lover may mount the throne of the

biggest kingdom in the Balkans. It would not be surprising, Carol's friends declare, if, in his effort to be dignified and show kingly demeanor, and to prepare himself for a possible return to Roumania, Carol deserted his beautiful companion. Carol has not received a reply to his request for permission to attend his father's

funeral at Bucharest. "I am afraid I will not get there,

So powerful was the loudspeaking device used by this paper that listeners across the street were in perfect hearing radius and the staccato announcements of Graham Mc-Namee, the comments of Phillips Garlin, the round gong and even the cheers of the crowd that filled Yankee Stadium, New York, could be distinctly heard without effort.

Considering the fact that the fight was a non-championship affair with no title at stake, the crowd was unusually large. HUNDREDS ATTEND PAN AMERICAN MEET **FAVORS BETTERING** LABOR CONDITIONS

Delegates From South American Nations Offer Problems

WASHINGTON, July 22.— The Pan American Federation of Labor convention today continued its consideration of resolutions proposed by various Latin American delegations looking to the better-ment of conditions for the working classes of the republics to the south.

These resolutions almost without exception bear a direct relation upon political conditions in those countries to the end that they may be summed up as a composite declaration of the political views of the organized Latin Amercan workers.

Delegates from every one of the dozen countries represented, principally from the West Indies, Central America and the Carribbean states of South America, have one or more political problems on which the federation is asked to take a stand. These bear on international relations as much as purely domestic problems.

While some of the resolutions as orginially proposed are couched in strongly aggressive and denunciatory language they are toned down to conservative declarations by the time they have run the gamut of the resolutions committee presided over by Matthew ican federation of labor.

This was evidenced in the treatment of the present Nicaraguan situation, when the committee late vesterday brought in a mildly worded substitute for the fiery denunciation of American intervention offered on Tuesday by the Nicaraguan delegates. The committee substitute expressed "regret for the events having occurred recently in Nicaragua" and phatic petition" for the immediate withdrawal of all American armed forces from Nicaragua. It was adopted by a unanimous rising

AT YANKEE STADIUM

Foul Claimed By Defeated Boxer-Tunney Is Next

By DAVIS J. WALSH

(I. N. S. Sports Editor) NEW YORK, July 22 .-They had two strikes on Babe Ruth and then he hit one over the fence.

The old, old story, ancient as sin itself, the tale of the hare and the tortoise, was repeated all over again at the Yankee stadium last night when Jack Dempsey, the great killer of fistiana, added another pelt to the old thatch pole.

He knocked Jack Sharkey, that painfully confident young man from Boston, colder than a frappe after fortyfive seconds of fighting in the seventh round, at a time when the tortoise seemed tottering on his last, palzied old legs and the hare was skimming over the landscape as only a hare can.

They were just about to declare it no contest out of resigned pity and prepare the melancholy obituaries about the man who was compared with the man who wasn't, when suddenly out of nowhere Dempsey lashed away in a clinch with a left to the body and jaw

and Sharkey was no more. Yes, they have had two strikes on Ruth. Many a man, they say, was born that way, but it means sinps on the side curtains mean nothing to Jack Dempsey.

For Dempsey, often compared

to the tiger, might be old and broken and toothless but as long as a tiger breathes he is dangerous to human kind and so it is with the man who lives within the man who masquerades under the synthetic polish and culture that

Dr. Caldwell's 3 Rules Keep You Healthy

Dr. Caldwell watched the results of constipation for forty-seven years, and believed that no matter how careful people are of their health, diet and exercise, constipa tion will occur from time to time regardless of how much one tries to avoid it. Of next importance then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his reme dy for constipation, known as Dr. Caldwell's Syrup Pepsin, is a mild vegetable compound. Central High School halted the winning streak of the Junior Busimess Men at eight straight by walloping the league-leaders 17 to 16 in a Class A Xenia Playground League soft ball game at Cox Memorial Athletic Field Thursday

The victory reduced the lead of the leaders to one and one-half games and made more secure Central's position of second place in the standing.

Creamer's single in the last h of the ninth inning, which scored Doak from second, produced the winning run after the business men had uncorked three-run rallies in both the eighth and ninth rounds to tie the score.

Central scored fifteen runs in the first three innings but the hitting of the high school fell off in the late rounds. The league leaders fought an uphill battle all the way and were never in front.

ROUND THE WORLD ON WINGS

It is the ambition of E. F. Schlee, president of the Wayco air service, to shortly begin a round the world flight in company with "Billee" Brock, chief pilot of the company. August 15th is the date set for the hop off and the two fliers expect to achieve their goal in 15 days. The picture is of the plane

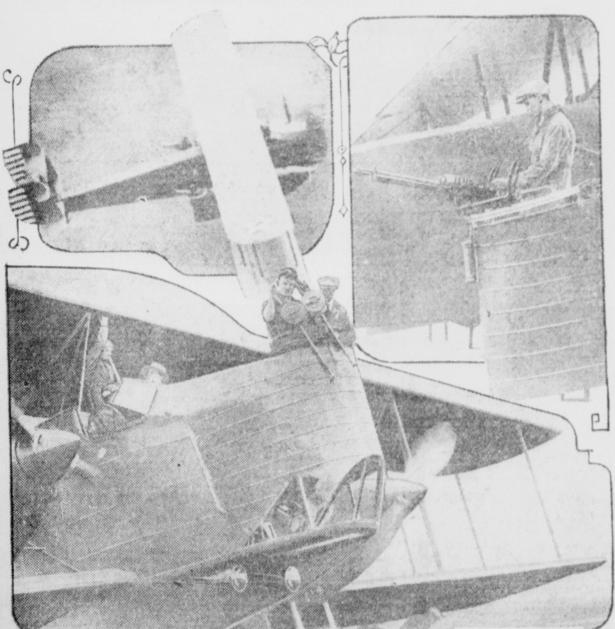

PRESIDENT TAKES UP AGRICULTURE

Whether the commotion over the McNary-Haugen bill is responsible or not, the fact remains that President Coolidge has lately shown an increasing interest in the affairs of the farm. The top picture shows him on a tour of inspection of the government experimental station at Ardmore, S. D., while below he is attending a farmers' picnic at the same place

NEW WAR MACHINE IS TESTED

The plane is an all-metal Curtiss Condor, motored with two 600 horsepower engines and capable of a speed of 105 miles an hour. Six machine guns are mounted in three turrets, one in the nose, and one in the rear of each of the two engine gondolas, and it has carrying space for 2,400 pounds of high explosives.

Ensign Charles L. Duke, thirty, is the hero of the U. S. Coast Guard. The captured ship is shown. Ensign Duke is pictured phoning headquarters: "I have met the enemy, and they are mine."

THE FLAPPER, CHINESE STYLE

Bobbed hair makes a girl a very modern flapper indeed, in China, report these two Chinese students at Wesleyan College, Macon, Ga. They don't go in for short skirts, at all, at all. "Anyway, our styles are prettier," say Miss Ling Nyi Vee, left, and Miss Ada Lee.
